# CONTENTS OF VOLUME 81

## No. 1, January, 1977

PAGE

Chemical Modification of Spinach Ferredoxin. Properties of Acetylated Spinach Ferredoxin. *R. Masaki, K. Wada, and H. Matsubara* 1

Soluble Proteins from Fowl Feather Keratin. I. Fractionation and Properties. *K. Akahane, S. Murozono, and K. Murayama* 11

Soluble Proteins from Fowl Feather Keratin. II. Isolation of Some Proteins from Barbs. *K. Murayama, K. Akahane, and S. Murozono* 19

Spontaneous Deamidation of a Protein Antibiotic, Neocarzinostatin, at Weakly Acidic pH. Conversion to a Homologous Inactive Preneocarzinostatin Due to Change of Asparagine 83 to Aspartic Acid 83 Accompanied by Conformational and Biological Alterations. *H. Maeda and K. Kuromizu* 25

Kallikrein Inhibitors in Rat Plasma. *Y. Hojima, M. Isobe, and H. Moriya* 37

Studies on the Catalytic Action of Poly-$\alpha$-amino Acids. VII. Stereospecificity in the Enzyme-like Hydrolysis of Benzoyl-L(D)-arginine-*p*-nitroanilides by Copoly (Cys, Glu). *J. Noguchi, N. Nishi, S. Tokura, and U. Murakami* 47

Some Enzymatic Properties of Peptidyl Dipeptide Hydrolase (Angiotensin I-Converting Enzyme). *G. Oshima and K. Nagasawa* 57

Studies on Thermolysin. II. Effects of Chemical Modifications on the Activity of Thermolysin. *H. Oshima, T. Abe, and K. Takahashi* 65

DTNB Modification of SH Groups of Isocitrate Dehydrogenase from *Bacillus stearothermophilus* Purified by Affinity Chromatography. *T. Nagaoka, A. Hachimori, A. Takeda, and T. Samejima* 71

Molecular Weight of Hyaluronic Acid from Rabbit Skin. *E. Shimada and G. Matsumura* 79

Multiple Molecular Forms of Phosphoprotein Phosphatase. Separation of Four Forms of the Rabbit Skeletal Muscle Enzyme. *M. Kobayashi and K. Kato* 93

Static and Kinetic Studies by Fluorometry on the Interaction between Gluconolactone and Glucoamylase from *Rh. niveus*. *M. Ohnishi, T. Yamashita, and K. Hiromi* 99

Studies on Glucosphingolipids of Fresh-Water Bivalves. III. Isolation and Characterization of a Novel Globoside Containing Mannose from Spermatozoa of the Fresh-Water Bivalve, *Hyriopsis schlegelii*. *T. Hori, M. Sugita, J. Kanbayashi, and O. Itasaka* 107

Purification and Some Properties of Phospholipase C ($\alpha$-Toxin) of *Clostridium perfringers*. *Y. Yamakawa and A. Ohsaka* 115

Micro-scale Determination of Seminolipid by High Performance Liquid Chromatography and Its Application for Determination of the Seminolipid Content in Boar Spermatozoa. *A. Suzuki, S. Handa, I. Ishizuka, and T. Yamakawa* 127

The Effect of Aurintricarboxylic Acid on RNA Polymerase from Rat Liver. *S. Akiyama, M. Kuwano, M. Yamamoto, and H. Endo* 135

Effects of Protein Deficiency on the Biosynthesis and Degradation of Ribosomal RNA in Rat Liver. *T. Kawada, T. Fujisawa, K. Imai, and K. Ogata* 143

Regulation of Protein Synthesis in Hen's Oviducts. I. Removal of Extracellular and Intracellular Proteins and Their Effects on Protein Synthesis. *T. Nakayama and K. Narita* 153

PAGE

Measurement of the pH of Frozen Buffer Solutions by Using pH Indicators. *Y. Orii and M. Morita* 163

Dihydropteridine Reductase from Bovine Liver. Purification, Crystallization, and Isolation of a Binary Complex with NADH. *H. Hasegawa* 169

Mathematical Analysis of Ligand-induced Monomerization and Dimerization in the Monomer-Dimer Equilibrium of Proteins. Application to D-Amino Acid Oxidase. *K. Horiike, K. Shiga, A. Isomoto, and T. Yamano* 179

Studies on the Microsomal Electron-transport System of Anaerobically Grown Yeast. IV. Purification and Characterization of NADH-cytochrome $b_5$ Reductase. *S. Kubota, Y. Yoshida, and H. Kumaoka* 187

Studies on the Microsomal Electron-transport System of Anaerobically Grown Yeast. V. Purification and Characterization of NADPH-cytochrome *c* Reductase. *S. Kubota, Y. Yoshida, H. Kumaoka, and A. Furumichi* 197

Uptake of Calcium Ions into Microsomes Isolated from *Physarum polycephalum*. *T. Kato and Y. Tonomura* 207

β-Actinin, a Regulatory Protein of Muscle. Purification, Characterization, and Function. *K. Maruyama, S. Kimura, T. Ishii, M. Kuroda, K. Ohashi, and S. Muramatsu* 215

I-Protein, a New Regulatory Protein from Vertebrate Skeletal Muscle. I. Purification and Characterization. *K. Ohashi, S. Kimura, K. Deguchi, and K. Maruyama* 233

I-Protein, a New Regulatory Protein from Vertebrate Skeletal Muscle. II. Localization. *K. Ohashi, T. Masaki, and K. Maruyama* 237

I-Protein, a New Regulatory Protein from Vertebrate Skeletal Muscle. III. Function. *K. Maruyama, S. Kunitomo, S. Kimura, and K. Ohashi* 243

Kinetic Studies on the ADP-ATP Exchange Reaction Catalyzed by $Na^+$, $K^+$-dependent ATPase. Evidence for the K.S.T. Mechanism with Two Enzyme-ATP Complexes and Two Phosphorylated Intermediates of High-Energy Type. *M. Yamaguchi and Y. Tonomura* 249

PRELIMINARY COMMUNICATIONS

A Complex of Collagenase with Low Molecular Weight Inhibitors in the Culture Medium of Embryonic Chick Skin Explants. *H. Shinkai, T. Kawamoto, H. Hori, and Y. Nagai* 261

Heme Oxygenase Purified to Apparent Homogeneity from Pig Spleen Microsomes. *T. Yoshida and G. Kikuchi* 265

Biosynthesis of Enzyme-bound Formylvaline and Formylvalylglycine. A Possible Initiation Complex for Gramicidin A Biosynthesis. *K. Akashi, K. Kubota, and K. Kurahashi* 269

Essential Factor of Gizzard 'Troponin' Fraction. A New Type of Regulatory Protein. *T. Mikawa, T. Toyo-oka, Y. Nonomura, and S. Ebashi* 273

**No. 2, February, 1977**

Kinetics of Conformational Change of Troponin-C Induced by Proton Binding or Removal in the Absence of Calcium Ions. *T. Iio, K. Mihashi, and H. Kondo* 277

Self-assembly of Myosin *In Vitro* Caused by Rapid Dilution. Effects of Hydrogen Ion, Potassium Chloride, and Protein Concentrations. *M. Miyahara and H. Noda* 285

Temperature Induced Transition of the pH-Activity Curve of Heavy Meromyosin Adenosine Triphosphatase and Inosine Triphosphatase. *F. Ishigami and F. Morita* 297

PAGE

Temperature Dependence of the Decay of the UV Absorption Difference Spectrum of Heavy Meromyosin Induced by Adenosine Triphosphate and Inosine Triphosphate. *F. Morita and F. Ishigami* 305

Temperature Induced Analog Reaction of Adenylyl Imidodiphosphate to an Intermediate Step of Heavy Meromyosin Adenosine Triphosphatase. *F. Morita* 313

Two Types of Sarcoplasmic Reticulum-Orthophosphate Interactions Observed with Dye Probe. *Y. Nakamaru and K. Nomura* 321

Effect of Temperature on Mg-ITP-induced Superprecipitation of Actomyosin. *T. Hozumi* 329

A Fluorescent Prove Response to the Interaction of Pyocin R1 with Sensitive Cells. *Y. Uratani and M. Kageyama* 333

Relationship between Tubulin SH Groups and Bound Guanine Nucleotides. *E. Nishida and T. Kobayashi* 343

Acceptor Activity of Subcellular Membranes for Two Terminal Sugars, Galactose and Sialic Acid. *Y. Ikehara, K. Oda, and K. Kato* 349

Metabolism of Putrescine in the Central Nervous System. *H. Konishi, T. Nakajima, and I. Sano* 355

A Novel and Simple Colorimetric Assay for Human Serum Lipase. *S. Kurooka, S. Okamoto, and M. Hashimoto* 361

Nucleoside Triphosphate Phosphohydrolase Associated with Cytoplasmic Polyhedrosis Virus. *K. Shimotohno and K. Miura* 371

Effects of Polyamines on the Activities of *Escherichia coli* Ribonuclease I and II. *H. Kumagai, K. Igarashi, M. Yoshikawa, and S. Hirose* 381

Effects of Polyamines on the Degradation of Ribonucleic Acids by Polynucleotide Phosphorylase of *Micrococcus leteus*. *K. Igarashi, H. Kumagai, H. Oguchi, and S. Hirose* 389

The Reactions of Phenylglyoxal and Related Reagents with Amino Acids. *K. Takahashi* 395

Further Studies on the Reactions of Phenylglyoxal and Related Reagents with Proteins. *K. Takahashi* 403

The Structure and Function of Ribonuclease $T_1$. XXII. Tryptic Cleavages of the Single Lysyl and Arginyl Bonds in Ribonuclease $T_1$. *K. Takahashi and N. Inoue* 415

The Structure and Function of Acid Proteases. VII. Distribution and Some Properties of Acid Proteases in Monkey Tissues. *K. Sogawa and K. Takahashi* 423

Studies on the Heterotropic Interaction of Hemoglobin. I. Mass Spectrometric Method for Determination of the $pK_a$ of the $\beta$-146 Histidine Residue in Human Hemoglobin. *M. Ohe and A. Kajita* 431

Substrate Specificities of Cathepsin A, L and A, S from Pig Kidney. *Y. Kawamura, T. Matoba, T. Hata, and E. Doi* 435

Selective Solubilization of Apolipoproteins from Hen's Egg Yolk Very Low Density Lipoprotein with Guanidine Hydrochloride and Urea. *J. Kurisaki and K. Yamauchi* 443

Effect of Cycloheximide on the Synthesis and Processing of 5S RNA in HeLa Cells. *Y. Hayashi, R. Kominami, and M. Muramatsu* 451

Induction of Ornithine Decarboxylase in Cultured Mouse L Cells. II. Effects of Additions of Amino Acids and Serum. *Y. Yamasaki and A. Ichihara* 461

Glutamate Dehydrogenase from *Bacillus subtilis* PCI 219. I. Purification and Properties. *K. Kimura, A. Miyakawa, T. Imai, and T. Sasakawa* 467

Purification and Characterization of Inorganic Pyrophosphatase from *Thiobacillis thiooxidans*. *N. Tominaga and T. Mori* 477

Purification of Hyaluronidase from Human Placenta. *M. Yamada, E. Hasegawa, and M. Kanamori* 485

Reaction of Chlorocruorin with Heme Iron Ligands and Carbonyl Reagents. *Y. Orii and N. Washio* 495

Molecular Architecture of Cytochrome Oxidase and Its Transition by Treatment with Alkali or Sodium Dodecyl Sulfate. *Y. Orii, M. Manabe, and M. Yoneda* 505

PAGE

Reconstitution of Vesicles Capable of Energy Transformation from Phospholipids and Adenosine Triphosphatase of a Thermophilic Bacterium. *N. Sone, M. Yoshida, H. Hirata, and Y. Kagawa* 519

PRELIMINARY COMMUNICATION

Location of the Iron-Sulfur Cluster in *Spirulina platensis* Ferredoxin by X-ray Analysis. *K. Ogawa, T. Tsukihara, H. Tahara, Y. Katsube, Y. Matsu-ura, N. Tanaka, M. Kakudo, K. Wada, and H. Matsubara* 529

**No. 3, March, 1977**

Positional Specificity of Phospholipase B of *Penicillium notatum.* *M. Nishijima and S. Nojima* 533

Multiple Components of Endo-polyguluronide Lyase of *Pseudomonas* sp. *K.H. Min, S.F. Sasaki, Y. Kashiwabara, H. Suzuki, and K. Nisizawa* 539

Substrate Specificity of Endo-polyguluronide Lyases from *Pseudomonas* sp. on the Basis of Their Kinetic Properties. *K.H. Min, S.F. Sasaki, Y. Kashiwabara, and K. Nisizawa* 547

Fine Structure of SMG Alginate Fragment in the Light of Its Degradation by Alginate Lyases of *Pseudomonas* sp. *K.H. Min, S.F. Sasaki, Y. Kashiwabara, M. Umekawa, and K. Nisizawa* 555

Studies on a Microchemical Method for Determination of the Degree of Polymerization of Neutral Oligo- and Polysaccharides. II. Application to Oligosaccharides and Glucans. *H. Yamaguchi and K. Makino* 563

Affinity Chromatography of Glycosidases. II. Studies on Specific and Non-specific Binding. *T. Mega and Y. Matsushima* 571

Studies on the Restoration of the Activities of Ribonucleases by Polyamines in the Presence of Various Ribonuclease Inhibitors. *K. Igarashi, Y. Watanabe, H. Kumagai, N. Ishizaki, and S. Hirose* 579

Alkaline Serine Proteinases D and E of *Streptomyces griseus* K-1. *Y. Narahashi and K. Yoda* 587

Isolation and Some Properties of Dog and Rat Pancreatic Kallikreins. *Y. Hojima, M. Yamashita, N. Ochi, C. Moriwaki, and H. Moriya* 599

Amino Acid Sequence of a Cyanogen Bromide Fragment Containing the Two Tryptophanyl Residues of Lobster Arginine Kinase (*Homarus vulgaris*). *B. Debuire, K.-K. Han, M. Dautrevaux, G. Biserte, F. Regnouf, and R. Kassab* 611

DNA-binding Segments of Four Histone Sequences Identified in Trypsin-treated H1-depleted Chromatin. *Y. Kato and K. Iwai* 621

Purification and Characterization of Arylamidase from Monkey Brain. *M. Hayashi and K. Oshima* 631

The Structure and Function of Ribonuclease $T_1$. XXIII. Inactivation of Ribonuclease $T_1$ by Reversible Blocking of Amino Groups with *cis*-Aconitic Anhydride and Related Dicarboxylic Acid Anhydrides. *K. Takahashi* 641

Anhydrotrypsin: New Features in Ligand Interactions Revealed by Affinity Chromatography and Thionine Replacement. *H. Yokosawa and S. Ishii* 647

Anhydrotrypsin and Trypsin: Subtle Difference in the Active-site Conformations Detected by Chemical Modification and CD Spectroscopy. *H. Yokosawa and S. Ishii* 657

Structural Specificity of the Allosteric Inhibitor of Phosphoenolpyruvate Carboxylase of *Escherichia coli.* *T. Yoshinaga* 665

Glutathione Reductase in the Sea Urchin Egg. III. Activation of the Complex Form by Proteinases. *I. Ii* 673

A New Enzyme, NADPH-Dihydropteridine Reductase in Bovine Liver. *N. Nakanishi, H. Hasegawa, and S. Watabe* 681

PAGE

Studies of Rat Liver Argininosuccinate Synthetase. I. Physicochemical, Catalytic, and Immunochemical Properties. *T. Saheki, T. Kusumi, S. Takada, and T. Katsunuma* 687

Glycolysis of Red Cells Suspended in Solutions of Impermeable Solutes. Intracellular pH and Glycolysis. *A. Tomoda, S. Tsuda-Hirota, and S. Minakami* 697

Lanthanide Ions and Skeletal Muscle Sarcoplasmic Reticulum. I. Gadolinium Localization by Electron Microscopy. *C. dos Remedios* 703

Actin-Induced Local Conformation Change in the Myosin Molecule. I. Effect of Metal Ions and Nucleotides on the Conformational Change around a Specific Thiol Group ($S_2$) of Heavy Meromyosin. *T. Kameyama, T. Katori, and T. Sekine* 709

Ciliary Dynein from Sea Urchin Embryos. *I. Kimura* 715

Properties of the $Na^+, K^+$-stimulated Adenosine Triphosphatase System Associated with the Plasma Membrane of Pig Thyroid Glands. *Y. Nagai and T. Hosoya* 721

Biochemical Characterization of the Neuron. ATPase and Acetylcholinesterase Activities of Neuronal Cell Bodies Isolated in Bulk from the Pig Brain Stem. *S. Hasegawa, S. Kaneko, M. Okuda, S. Araki, and M. Satake* 729

Effect of Testosterone on the Amount of Serous-like Granules in Convoluted Tubular Cells of Mouse Submandibular Glands. *K. Hosoi, T. Nakamura, and T. Ueha* 739

Involvement of Outer Membrane Proteins in Enterochelin-mediated Iron Uptake in *Escherichia coli*. *S. Ichihara and S. Mizushima* 749

Sites of Action of the KCl-soluble Protein in the Stimulation of Protein Synthesis in Sea Urchin Systems. *Y. Mano and K. Kano* 757

A Novel Pathway for L-Citramalate Synthesis in *Rhodospirillum rubrum*. *T. Osumi and H. Katsuki* 771

Subfractionation of Rat Liver Microsomes by Immunoprecipitation and Immunoadsorption Methods. *K. Kawajiri, A. Ito, and T. Omura* 779

Isolation of Cytokinin Binding Protein from Tobacco Leaves by Bioaffinity Chromatography and Its Partial Characterization. *K. Yoshida and T. Takegami* 791

PRELIMINARY COMMUNICATIONS

The Role of Cathepsin B1 in the Collagen Breakdown of Carrageenin Granuloma in Rats. *H. Nakagawa, K. Aihara, and S. Tsurufuji* 801

Amino Acid Sequences around 1,2-Epoxy-3-(*p*-nitrophenoxy)propane-reactive Residues in *Rhizopus chinensis* Acid Protease: Homology with Pepsin and Rennin. *S. Nakamura and K. Takahashi* 805

Amino Acid Sequence of the L-2 Light Chain of Rabbit Skeletal Muscle Myosin. *G. Matsuda, T. Maita, Y. Suzuyama, M. Setoguchi, and T. Umegane* 809

**No. 4, April, 1977**

Carbohydrate Metabolism in *Bacillus brevis* ATCC 9999. *M. Asatani and K. Kurahashi* 813

Enzymes of the Tryptophan Synthetic Pathway in *Brevibacterium flavum*. *S. Sugimoto and I. Shiio* 823

Production of Copper Coproporphyrin III by *Bacillus cereus*. I. Purification and Identification of Copper Coproporphyrin III. *T. Yamada-Ankei, H. Iwasaki, and T. Mori* 835

Production of Copper Coproporphyrin III by *Bacillus cereus*. II. Regulation of the Biosynthesis of Coproporphyrin III and Its Copper Complex by Oxygen and Heavy Metal Ions. *T. Yamada-Ankei, H. Iwasaki, and T. Mori* 843

Purification and Some Properties of Cyclohexylamine Oxidase from a *Pseudomonas* sp. *T. Tokieda, T. Niimura, F. Takamura, and T. Yamaha* 851

PAGE

Purification, Crystallization, and Properties of Adenylosuccinate Synthetase from Rat Skeletal Muscle. *H. Ogawa, H. Shiraki, Y. Matsuda, K. Kakiuchi, and H. Nakagawa* 859

Effects of Detergents on the Conformation of *Escherichia coli* tRNA as Measured by Circular Dichroism. *N. Okabe, M. Serikawa, and K. Tomita* 871

Binding of Cytoplasmic 5$\alpha$-Dihydrotestosterone-Receptor Complex by Nuclei from the Ventral Prostate, Liver, and Spleen of Rats. *S. Ichii, N. Murakami, and M. Izawa* 879

Comparative Studies on the Binding of Cytoplasmic $^3$H-Dexamethasone-Receptor Complex by Nuclei from the Livers of Adult, Newborn, and Fetal Rats. *N. Murakami and S. Ichii* 885

Fluorescent Probes for Antibody Active Sites. II. Further Studies on Two Groups of Anti-MANS Antibodies with Significantly Different Effects on MANSamide Fluorescence Produced by a Single Rabbit. *M. Onodera and H. Shiokawa* 891

Studies on the Priming Specificity of Polyribonucleotides on *Azotobacter vinelandii* Polynucleotide Phosphorylase. *S. Mii* 899

Analysis of Reverse Acceptor Control in Mitochondria. *T. Tsujimoto* 911

Intramolecular Disulfide Linked $\alpha\beta$ and $\alpha\alpha$ in Oxidized Tropomyosin: Separation, Identification, and Process of Formation. *N. Ookubo* 923

The Sulfhydryl Groups Involved in the Active Site of Myosin B Adenosinetriphosphatase. II. Effect of Modification of the $S_a$ Thiol Group on Superprecipitation and Clearing. *T. Yamashita and T. Horigome* 933

Purification of Immunoglobulin Light Chain Messenger RNA by Immunoprecipitation from Mouse Myeloma Tumor, MOPC-31C. *M. Ono, T. Kondo, and M. Kawakami* 941

Purification of Immunoglobulin Heavy Chain Messenger RNA by Immunoprecipitation from the Mouse Myeloma Tumor, MOPC-31C. *M. Ono, T. Kondo, M. Kawakami, and T. Honjo* 949

Proteolysis of Apoproteins in Human Serum Low Density Lipoprotein. *A. Ikai and H. Yagisawa* 955

Purification and Properties of Phenylalanine Ammonia-Lyase in Cut-Injured Sweet Potato. *Y. Tanaka and I. Uritani* 963

Use of Fluorescein Mercuric Acetate as a Probe in Studies of Thiol-Containing Proteins. *S. Takeuchi and A. Maeda* 971

Preparation of Myosin Subfragment-1 from Pig Cardiac Muscle Myosin by Chymotryptic Digestion. *K. Yagi and H. Kuwayama* 977

Studies of the Influence of N-Substitution in Heparin on Its Anticoagulant Activity. *K. Nagasawa, T. Tokuyasu, and Y. Inoue* 989

Structure and Function of 5S Ribosomal Ribonucleic Acid from *Torulopsis utilis*. III. Detection of Single-Stranded Regions by Digestion with Nuclease S1. *K. Nishikawa and S. Takemura* 995

Effect of Cobalt on the Synthesis of Liver Microsomal Cytochromes. *Y. Yasukochi, M. Nakamura, and S. Minakami* 1005

Some Heavy Metals Affecting the Lecithin-Cholesterol Acyltransferase Reaction in Human Plasma. *M. Nakagawa, M. Takamura, and S. Kojima* 1011

Affinity of Glucose Analogs for $\alpha$-Glucan Phosphorylases from Rabbit Muscle and Potato Tubers. *M. Ariki and T. Fukui* 1017

A Study of $\gamma$ Component, a Myofibrillar Protein. *G. Ashiba and S. Watanabe* 1025

Circular Dichroism Studies on the N-Bromosuccinimide Oxidation of Ribonuclease from *Aspergillus saitoi*. *K. Ohgi and M. Irie* 1031

Purification and Properties of Trehalase from Rat Intestinal Mucosal Cells. *M. Nakano, Y. Sumi, and M. Miyakawa* 1041

Calorimetric Study on the Conformational Transition of $\alpha$-Lactalbumin Induced by Guanidine Hydrochloride. *T. Okuda and S. Sugai* 1051

PAGE

Studies on Luciferase from *Photobacterium phosphoreum*. IX. Further Studies on the Spectroscopic Characteristics of the Enzyme-FMN Intermediates. *N. Ashizawa, T. Nakamura, and T. Watanabe* 1057

Chemical Properties of the Polysaccharides Associated with Acid Protease of *Aspergillus oryzae* Grown on Solid Bran Media. *Y. Tsujita and A. Endo* 1063

Membrane-Bound Adenosine Triphosphatase of *Eschrichia coli*. III. Effects of Sodium Azide on the Enzyme Functions. *H. Kobayashi, M. Maeda, and Y. Anraku* 1071

Glycolipids in Granulomas during Growth. *E. Hanada, K. Konno, S. Handa, T. Yamakawa* 1079

A Specific Method for the Determination of Threonine in Rat Blood Plasma Using Aldehyde Dehydrogenase. *T. Nishida, S. Kume, M. Saito, and M. Suda* 1085

Base Specificity of Polyamine Binding to Synthetic Polynucleotides. *K. Igarashi, Y. Aoki, and S. Hirose* 1091

Morphology of Lipid Micelles Containing Lysolecithin. *K. Inoue, K. Suzuki, and S. Nojima* 1097

Biochemical Studies on an Acidophilic, Thermophilic Bacterium, *Bacillus acidocaldarius*: Isolation of Bacteria, Intracellular pH, and Stabilities of Biopolymers. *T. Oshima, H. Arakawa, and M. Baba* 1107

*In Vitro* Polymerization of Marine Egg Tubulin into Microtubules. *R. Kuriyama* 1115

Inhibition of the Biosynthesis of Leucomycin, a Macrolide Antibiotic, by Cerulenin. *H. Takeshima, C. Kitao, and S. Omura* 1127

Delayed Fluorescence from Bacteriochlorophyll in *Chromatium vinosum* Chromatophores: Characterestics in the Presence of *o*-Phenanthroline. *H. Arata, K. Takamiya, and M. Nishimura* 1133

Presence of a Unit for Actin-Myosin Interaction during the Superprecipitation of Actomyosin. *T. Hozumi and K. Hotta* 1141

Affinity Labeling of Adenine Nucleotide-Related Enzymes with Reactive Adenine Nucleotide Analogs. I. Affinity Labeling of Glyceraldehyde 3-Phosphate Dehydrogenase and Myokinase with a Reactive AMP Analog. *K. Suzuki, C. Eguchi, and K. Imahori* 1147

Purification and Properties of Four Biologically Active Components of Whale Luteinizing Hormone. *H. Tamura-Takahashi and N. Ui* 1155

Determination of Molecular Species of Phospholipids from Thermophilic Bacterium PS3 by Mass Chromatography. *Y. Kagawa and T. Ariga* 1161

Stereochemical Studies of Hydrogen Incorporation from Nucleotides with Fatty Acid Synthetase from *Brevibacterium ammoniagenes*. *Y. Seyama, T. Kasama, T. Yamakawa, A. Kawaguchi, and S. Okuda* 1167

Chemical Modifications of Ribonuclease $U_1$. *J. Hashimoto and K. Takahashi* 1175

**No. 5, May, 1977**

The Structure of the Branching Point between Acidic Polysaccharide and Peptidoglycan in *Micrococcus lysodeikticus* Cell Wall. *S. Hase and Y. Matsushima* 1181

Hydrolysis of Phenyl $\beta$-Maltoside Catalyzed by Saccharifying $\alpha$-Amylase from *Bacillus subtilis*. *K. Ishikura, Y. Nitta, and T. Watanabe* 1187

Partial Purification and Characterization of L-Lactate Dehydrogenase Isozymes from Sweet Potato Roots. *K. Ôba, S. Murakami, and I. Uritani* 1193

Isolation of Glycopeptides from the Lectin-stimulated Human Peripheral Lymphocyte Cell Surface. *M. Saito, S. Toyoshima, and T. Osawa* 1203

Studies on Sterol-Ester Hydrolase from *Fusarium oxysporum*. I. Partial Purification and Properties. *Y. Okawa and T. Yamaguchi* 1209

A New Procedure for the Isolation of Brain Gangliosides, and Determination of Their Long Chain Base Compositions. *N. Kawamura and T. Taketomi* 1217

PAGE

A Method for Incorporating Labeled Lecithin into Serum Low Density Lipoproteins *In Vitro*. *S. Yokoyama, M. Takayama, and Y. Akanuma* 1227

Isolation and Partial Characterization of the Serum Low Density Lipoprotein from Bullfrog, *Rana catesbeiana*. *N. Suzuki, S. Kawashima, S. Fukushima, N. Ueta, H. Nagano, and R. Shukuya* 1231

Systematic Synthesis of Dinucleotides and Trinucleotides with RNases $U_2$, $N_1$, and a Non-specific RNase from *B. subtilis*. *T. Uchida and C. Funayama-Machida* 1237

Separation of Newly-synthesized RNA by Organomercurial Agarose Affinity Chromatography. *M. Ono and M. Kawakami* 1247

Purification and Properties of Deoxyribonucleic Acid Ligases from Rat Liver. *H. Teraoka, M. Shimoyachi, and K. Tsukada* 1253

A Latent Collagenase from Embryonic Human Skin Explants. *H. Shinkai and Y. Nagai* 1261

Interaction of *Asp. melleus* Semi-Alkaline Protease with Benzeneboronic Acid. *N. Nakatani, H. Fujiwake, and K. Hiromi* 1269

A Conformational Change in the Benzeneboronic Acid-α-Chymotrypsin Complex. Evidence for a Conformational Change in a Tetrahedral Adduct of α-Chymotrypsin. *K. Hanai* 1273

Purification of Carboxypeptidase A Using Sepharose 4B-Bound 3-Phenylpropionate. *G. Oshima and K. Nagasawa* 1285

An Improved Method for the Purification of Rat Serum Albumin: Removal of Contaminants by Concanavalin A-Sepharose. *Y. Ikehara, K. Oda, and K. Kato* 1293

Properties of Opsin-Lipid Complex in Aqueous 2-Chloroethanol. *A. Ikai* 1299

Thermal Denaturation of Cytochromes *c* of Horse, Cow, and *Candida krusei* in Aqueous Guanidine Hydrochloride. *H. Kawaguchi and H. Noda* 1307

Circular Dichroism and Magnetic Circular Dichroism Studies on Catalase and Its Derivatives, with Special Reference to the Peroxide Compounds. *M. Kajiyoshi and F.K. Anan* 1319

Circular Dichroism and Magnetic Circular Dichroism Studies on Methemoglobin and Its Derivatives. *M. Kajiyoshi and F.K. Anan* 1327

Further Studies on the Properties of the Polypeptide Chain Elongation Factors Tu and Ts: Hydrogen-Tritium Exchange, Optical Rotatory Dispersion, and Intrinsic Fluorescence. *K. Arai, T. Arai, M. Kawakita, and Y. Kaziro* 1335

Studies on Rat Liver Catalase. IX. Role of Methionine in Polypeptide Chain Initiation. *T. Sakamoto and T. Higashi* 1347

Properties of Proteins Produced after Damage to Deoxyribonucleic Acid of *Escherichia coli*. *K. Yoda, K. Nagai, and G. Tamura* 1357

Dihydrodipicolinate Reductases from *Bacillus cereus* and *Bacillus megaterium*. *K. Kimura and T. Goto* 1367

Two ω-Amino Acid Transaminases from *Bacillus cereus*. *Y. Nakano, H. Tokunaga, and S. Kitaoka* 1375

Coordination Chemical Studies on Metalloenzymes. II. Kinetic Behavior of Various Types of Chelating Agents towards Bovine Carbonic Anhydrase. *Y. Kidani and J. Hirose* 1383

Affinity Labeling of Adenine Nucleotide-related Enzymes with Reactive Adenine Nucleotide Analogs. II. Affinity Labeling of Phosphoglycerate Kinase with a Reactive AMP Analog. *K. Suzuki, C. Eguchi, and K. Imahori* 1393

Synthesis of AMP Analogs and Their Use for Studies on the Allosteric Site of Rabbit Muscle Glycogen Phosphorylase *b*. *C. Eguchi, K. Suzuki, and K. Imahori* 1401

Molecular Properties of L-Kynurenine 3-Hydroxylase from Rat Liver Mitochondria. *Y. Nisimoto, F. Takeuchi, and Y. Shibata* 1413

Superoxide Dismutase from *Mycobacterium lepraemurium*. *K. Ichihara, E. Kusunose, M. Kusunose, and T. Mori* 1427

PAGE

Kinetics of the Salt Modifications of Glucose 6-Phosphate Dehydrogenase Purified from a Marine *Vibrio alginolyticus* *T. Unemoto, N. Kanbayashi, M. Hayashi, and M. Hayashi* 1435

Purification and Properties of Two Acid Phosphatases from Midgut Glands of Abalone *Haliotis discus.* *H. Yoshida, H. Sagami, and S. Oikawa* 1447

Effect of Halide Anions on the Binding of FAD to D-Amino Acid Oxidase and the Tryptophanyl Fluorescence of the Apoenzyme. *Y. Nishina, K. Horiike, K. Shiga, Y. Miyake, and T. Yamano* 1455

A Study of the Interactions between Flavoprotein and Quasi-substrates. Circular Dichroism Spectra of D-Amino Acid Oxidase Complexes. *K. Shiga, K. Horiike, Y. Nishina, A. Isomoto, and T. Yamano* 1465

Studies on the Allosteric Properties of Mutationally Altered Phosphoenolpyruvate Carboxylases of *Escherichia coli.* Discrimination of Allosteric Sites. *M. Morikawa, K. Izui, and H. Katsuki* 1473

On the Heterogeneity and Organ Specificity of Chicken Tropomyosins. *J. Hayashi, T. Ishimoda, and T. Hirabayashi* 1487

Purification and Some Properties of Rabbit Stomach Myosin. *N. Katoh and S. Kubo* 1497

Accumulation of Phosphoenolpyruvate in Red Cells Incubated with the Phosphate Ester in an Acidified Isotonic Sucrose Medium. *N. Hamasaki, A. Tomoda, H. Harasaki, and S. Minakami* 1505

Localization of the Phlorizin Site on Na,K-ATPase in Red Cell Membranes. *A. Nakagawa and M. Nakao* 1511

Transport of Sugars and Amino Acids in Bacteria. XVIII. Properties of an Isoleucine Carrier in the Cytoplasmic Membrane Vesicles of *Escherichia coli.* *I. Yamamoto and Y. Anraku* 1517

Strain Specificity of Outer Membrane Proteins in *Escherichia coli.* *S. Ichihara and S. Mizushima* 1525

Distribution of Hepatic Sulfite Oxidase among Subcellular Organelles and Its Intraorganelle Localization. *A. Ito, T. Kuwahara, Y. Mitsunari, and T. Omura* 1531

Macromolecular Components of The Vitelline Membrane of Hen's Egg. III. Physicochemical Properties of Glucoprotein II. *S. Kido, M. Janado, and H. Nunoura* 1543

Immunospecificity of Non-Histone Chromosomal Proteins in $^{89}$Sr-induced Osteogenic Sarcoma (Mouse). *N. Kono, I. Shima, and G. Ohta* 1549

Use of Rabbit Antibody IgG-loaded Silicone Pieces for the Sandwich Enzymoimmunoassay of Macromolecular Antigens. *K. Kato, Y. Hamaguchi, S. Okawa, E. Ishikawa, K. Kobayashi, and N. Katunuma* 1557
